

Guaranty Sheet Metal Sponsor Meeting Notes

Date	Feedback
4-Apr	Met with sponser and discussed current state of application. Inventory pageis very solid not much feedback. Wanted to see customers page reworked to be similar to current excel file. Discussed the rework on purchases page to focus on a more stronger inventory and ease of work aspect. Wants to see an excel file generated that can be sent directly to a contact where parts are sourced from.
11-Apr	Discussed with sponser additional widgets to add the the home page. Additioanlly discussed an additional add to the purchases page where the shipping costs of an order can be used to generate a mark up cost that is applied to all inventory of the shipment.
18-Apr	Met with sponser to display current status of the application. Demonstrated Dashboard, Inventory, Purchases, Jobs, Logging and role based access. Received very positive feedback, they are thrilled with the application state and current workflow. Additionally they are looking forward to receiving documentation and entire application to start preparing for a launch.
